In the Claims:

Please add new claims 7-17, all as shown below. All pending claims are reproduced below, including unchanged claims and marked up versions of amended claims.

1.   (Original) A system for providing extensible online help, comprising:

providing a help system adapted to process documentation content upon import of an extension; and

providing a help display adapted to provide display operations for the help system.

2.   (Original) A system for providing extensible online help, comprising:

means for providing a help system adapted to process documentation content upon import of an extension; and

means for providing a help display adapted to provide display operations for the help system.

3.   (Original) A computer-readable medium, comprising:

means for providing a help system adapted to process documentation content upon import of an extension; and

means for providing a help display adapted to provide display operations for the help system.

4.   (Original) A computer program product for execution by a server computer for providing

- 2 -

extensible online help, comprising:

computer code for providing a help system adapted to process documentation content

upon import of an extension; and

computer code for providing a help display adapted to provide display operations for the

help system.

5.   (Original) A computer system comprising:

a processor;

object code executed by said processor, said object code configured to:

provide a help system adapted to process documentation content upon import of

an extension; and

provide a help display adapted to provide display operations for the help system.

6.   (Original) A computer data signal embodied in a transmission medium, comprising:

a code segment including instructions to provide a help system adapted to process

documentation content upon import of an extension; and

a code segment including instructions to provide a help display adapted to provide display

operations for the help system.

7.   (New) The computer program product of claim 4 wherein the extension is an IDE

extension.

8.　(New)　The computer program product of claim 1 wherein the help system may include a control and a control property.

9.　(New)　The computer program product of claim 7 wherein the help system can be integrated with an extension installation mechanism.

10.　(New)　The computer program product of claim 7 wherein the help display is configured to display content in a web browser.

11.　(New)　The computer program product of claim 7 wherein help display displays a table of contents.

12.　(New)　The computer program product of claim 7 wherein help display is externally controllable.

13.　(New)　The computer program product of claim 1 wherein the help system includes general conceptual help topics.

14.　(New)　The computer program product of claim 1 wherein the help system includes context-sensitive help topics.

- 4 -

15.   (New) The computer program product of claim 14 wherein the context-sensitive help topics are organized by a context ID.

16.   (New) The computer program product of claim 15 wherein the context ID is a fully qualified Java class.

17.   (New) The computer program product of claim 15 wherein the context ID is a fully qualified name from a non-Java resource.
